

Section	Checklist item	Status
Abstract	Abstract present and structured	Compliant
Abstract	Nature-style “headline results” (expected later)	Partial
Background & Motivation	Rationale + sufficient context/background	Compliant
Background & Motivation	Relevance to field discussed	Compliant
Background & Motivation	Situated in current literature	Compliant
Background & Motivation	Literature review summary table included	Compliant
Aim & Research Question	Aim/objectives clearly communicated	Compliant
Aim & Research Question	Research question(s) explicitly stated	Partial
Aim & Research Question	RQs linked to real-world needs (explicitly)	Partial
Aim & Research Question	RQs aligned to background/motivation (explicitly)	Partial
Data / Dev evidence (EDA / datasets / validation)	Dataset analysis (intra/inter) + generalizability via external dataset	Missing
Data / Dev evidence (EDA / datasets / validation)	EDA before/during/after cleaning + drift measures (PSI/JSD) + viz	Missing
Data / Dev evidence (EDA / datasets / validation)	Separate “not-trained-on” dataset evaluation	Missing
Data / Dev evidence (EDA / datasets / validation)	Dev-related: simulation/data generation + visualizations (planned)	Partial
Methodology	Linked to the-ory/frameworks/algorithms	Compliant
Methodology	Methods fully detailed for data collection/analysis (beyond plan)	Partial

Section	Checklist item	Status
Methodology	Alignment between RQs–methods–practicality (needs explicit RQs)	Partial
Methodology	Ethical considerations addressed	Compliant
Methodology	FAIR + CARE principles	Missing
Methodology	Process flowcharts complete (no dead-ends) (not fully audited)	Partial
Methodology	k-fold cross-validation	Missing
Methodology	Multiple models / sweeps / ensembles (planned)	Partial
Methodology	Multi-modal / hybrid solutions (mentioned/planned)	Partial
Findings / Results	Findings/results reported (spec stage)	Partial
Findings / Results	Impacts/implications/use cases highlighted	Partial
Findings / Results	Visualizations for findings (mostly planned)	Partial
Result validation & explainability	Performance metrics (planned)	Partial
Result validation & explainability	Interpretability / explainability (SHAP planned)	Partial
Result validation & explainability	Multiple XAI methods (not yet)	Partial
Conclusion	Conclusions supported by results (spec stage)	Partial
Future work	Practical implications/recommendations for practitioners	Partial
References	References relevant and up-to-date	Compliant
References	Mix of recent + classic coverage	Compliant
References	References consistently discussed/linked in lit review	Partial

Section	Checklist item	Status
References	Single reference style enforced (APA7/ACM/IEEE etc.)	Partial
Presentation	Title appropriate (not checked here)	Partial
Presentation	Abstract concise without losing rigor	Partial
Presentation	Intro storytelling + visuals	Compliant
Presentation	Academic language/editing (needs polish)	Partial
Presentation	All figures/tables referenced in text (needs sweep)	Partial
Presentation	Thousand separators + right-aligned table numbers (inconsistent)	Partial
Presentation	Full form before abbreviations (needs sweep)	Partial
Presentation	ORCID for all authors	Missing
Presentation	Author order policy followed (not checked here)	Missing
Presentation	Figures/diagrams are vector formats (PDF/SVG sources)	Compliant
Plagiarism / similarity / AI-writing policy (process)	Similarity <4% verified	Missing
Plagiarism / similarity / AI-writing policy (process)	Grammar/spell check done (Turnitin etc.)	Missing
Plagiarism / similarity / AI-writing policy (process)	Generative-AI policy compliance verified/documented	Missing
